

Appearance: Yellowish paste
Total solid concentration[%]: 64.0 ~ 68.0
pH: 3.0 ~ 4.0 - (25°C, 5% aq. solution)
Viscosity (cps): 3000 ~ 11000 - 25°C, Brookfield LVT

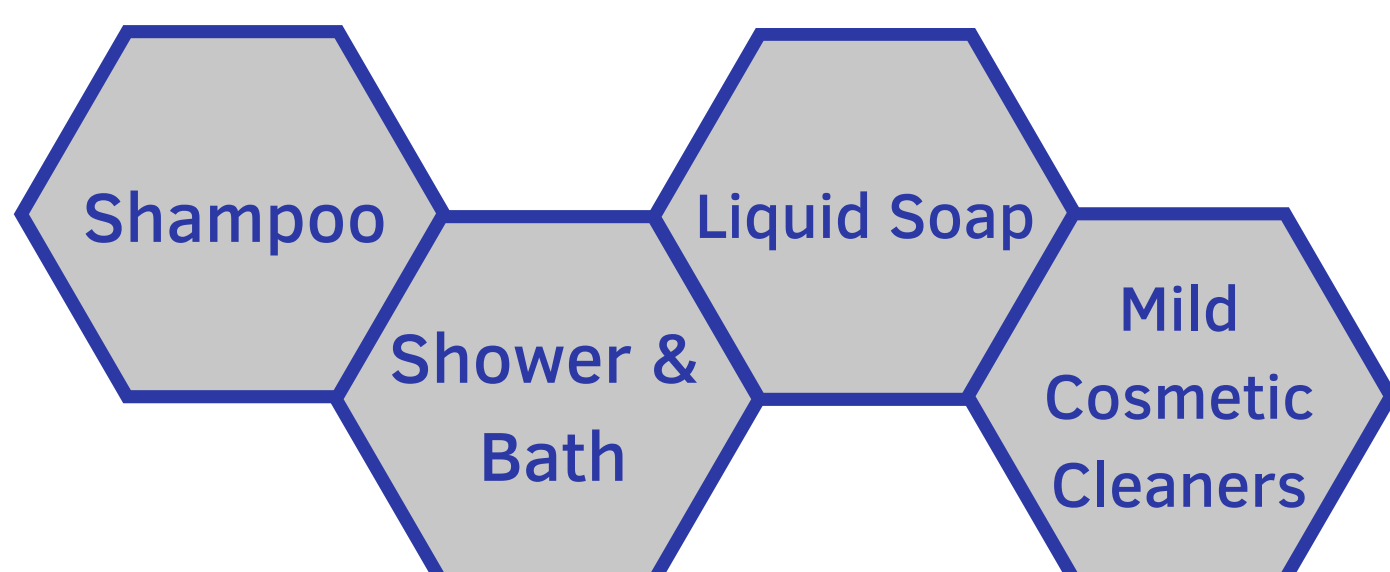

Cold processable re-fatting agent

TEQPON PM400

INCI: *Coco Glucoside & Glyceryl Oleate*

Reach No: 01-2119488530-36-0003/01-2119489418-23-0002, 01-2119495562-30-000, 01-2119457026-42-0006

CAS No: (Coco Glucoside) 110615-47-9, 68515-73-1, (Glyceryl Oleate) 68424-61-3

- Readily biodegradable and vegetable origin
- Excellent re-fatting and lipid layer enhancing properties
- Improve wet combability, adds conditioning properties and leaves hair soft and manageable in shampoos
- Offers viscosity enhancing and foam stabilizing properties

Shelf life: 2 years | Packaging size: 200 kg drums

Since 1975
